

**Church Development and Revitalization
Annual Report to Presbytery
December 2024**

During the August 2024 meeting, the presbytery voted to amend the Manual of Operations to create the commission for Congregational Transformation and Innovation. In creating this new commission, the Church Development and Revitalization Ministry was removed from the manual.

The new commission was created for 3 purposes:

1. Work with existing congregations to help them find new and innovative ways to be the church.
2. Seek out and establish new worshipping communities, providing guidance, resources, and oversight.
3. Establish and promote connections of churches working together, sharing resources to enable transformation and development of new worshipping committees.

The Commission on Representation will nominate members for the commission to be elected by the presbytery at the December 2024 meeting. The new commission will begin work in January 2025.

Respectfully submitted by Keith Benze
